Appleby is one of the leading law firms in the British Virgin Islands. Appleby has 32 BVI lawyers, with eight resident in the BVI. Appleby's BVI law office provides both corporate and litigation services, and continues to grow to meet the considerable interest from North America, Latin America, Africa and Europe.

The establishment of the BVI Business Companies Act was instrumental in the Territory's success in being able to attract significant numbers of mutual fund, captive insurance and trust companies to its shores. The BVI remains committed to the OECD principles of exchange of information and transparency in tax matters, as demonstrated by the Territory's listing on the OECD "White List".

Lawyers in our BVI office advise clients in relation to BVI law and are able to facilitate the provision of legal advice in Bermuda, the Cayman Islands, Guernsey, Isle of Man, Jersey, Mauritius and the Seychelles.

Appleby Projects in the BVI

In the British Virgin Islands Appleby supports local charities through donations and sponsorship. We encourage our employees to share their time and expertise as volunteers to support the local community.

Our community investment programme benefits charities and our business by helping us to build good relationships in the local community and by contributing to employee development and job satisfaction. Our focus is to help in the areas of: youth development, environment, sport and the arts.

Some of the organisations that we support through funding and in-kind donations include:

- **BVI Cancer Society** Works to prevent the development of cancer, and to counsel and support cancer patients and their families.
- **eCamps BVI** Facilitates global experiential learning for young people with a focus on building character, confidence and leadership skills.
- **National Theatre Live** Launched a BVI Theatre Series showcasing performances from the UK's National Theatre, with H. Lavity Stoutt Community College.
- **The Humane Society of Tortola** Caring for, and sheltering unwanted companion animals until loving homes can be found.

Non-profit making organisations seeking more information about financial and in-kind support should contact [Judy Haycraft](#).
